Autumn Term

Dear Parent/Carer

Re: Height and weight checks for children in Reception and Year 6

Each year in England, school children in Reception and Year 6 have their height and weight checked at school as part of the National Child Measurement Programme (NCMP). Height and weight measurements are used to calculate body mass index (BMI).

For further Information: **NCMP Programme**

During the Autumn term the School Aged Immunisation and Screening team will weigh and measure children fully clothed, except for their coats and shoes.

This is a **national opt out programme** so if you do not wish your child to be measured please email the team as scfh.immunisations@hcrgcaregroup.com putting in the title **NCMP Opt Out and school name**. In the email, please state your **child's name and date of birth or NHS number** to identify them and confirm that you wish to opt out of the measurement screening programme.

If you do not opt out the results will be sent to you via your email. If your child's measurements fall outside the normal range, details of further support will be included in this communication.

If you do not receive your results, please contact our team on the details above.

Children are not required to take part on the day if they choose not to.

Yours sincerely

School Aged Immunisation and Screening Team
